## T H WHITE Agriculture supports 100 Years of Ford & New Holland with Family Tractor Day

**Monday 1 May, 10am-3pm  
Close Lane, Rowde, Devizes, Wiltshire SN10 2QG (Just off the A342)**

It's definite! Bank Holiday Monday, 1 May, will see a sensational gathering of tractors to celebrate a century of Ford and New Holland. Taking place at Rowde, just a couple of miles from the T H WHITE Group Office the event is expected to showcase many memorable tractor models. Co-ordinated with help from the Big Ford Tractor Register and hosted by kind permission of A J Butler, the gathering is supported by T H WHITE and New Holland, as well as the Devizes and Malmesbury Young Farmers Club, and is being planned as a super day out for the whole family.

Alongside ploughing and cultivation demonstrations there will be vintage and classic tractor working areas, while the Tractor Ted bouncy castle will be in attendance with balloons and stickers for the kids. Food stalls will also be on site. The event will raise funds for charity, with collections during the day for the Dorothy House Hospice, Julia's House Children's Hospices and the Royal Agricultural Benevolent Institution.

Many classic tractors are already promised, but we are still looking for more. If you have a tractor you would like to bring along, all you have to do is register it by emailing the details to [plm@thwhite.co.uk](mailto:plm@thwhite.co.uk), or by searching on Facebook for 'Century of Ford & New Holland'. We are aiming to make this one of the biggest gatherings of its type and all models will be welcome – Fordson, Ford, New Holland and Ford conversions, so please do take part if you can.

## About T H WHITE

**We've been helping customers get the best from their machinery, land and buildings since 1832.** From humble beginnings as an agricultural ironmonger, T H WHITE has been operating for almost two centuries, through the reign of seven British monarchs. The T H WHITE Group has been at the forefront of changing agricultural needs and practices and has always been regarded as a trusted supplier.

While maintaining those roots in agriculture and engineering, the company today has diversified greatly with business interests in grain processing and storage, groundcare machinery, dairy, trailers, lorry cranes, construction equipment, motor vehicles and energy, fire and security systems. By embracing technological advancements and working closely with leading global brands to engineer equipment solutions, coupled with the provision of first rate aftersales support, we strive to ensure sustainable growth for the future.
